

A world's leading manufacturer of power tools

 Double Insulation

 Electronic speed control

 Dust Collecting

9 mm (3/8") Belt Sander

Model 9032

Makita new power-file sander enables you to file and sand in awkward and confined areas, replacing manual works.

A world's leading manufacturer of power tools

Various sanding arms and sanding belts, 10 mm (3/8") and 13 mm (1/2"), assures a wide range of applications.

9 mm (3/8") Belt Sander Model 9032

3. Electronic speed control dial.

Speed adjusting dial to select optimum speed (300-1,700 m/min.) to match various materials.

4. Adjustable sanding arm.

All sanding arms can be swiveled at the above angle for your convenience.

5. Dust-free work with dust extraction system.

Dust extraction directly at the power-file sander (See the above feature) assures a dust free and efficient work. Use Dust Nozzle Assembly and Hose 28 (28 mm diameter hose).

Sanding belt widths, 6 mm (1/4"), 9 mm (3/8") wider range of sanding and filing applications.

1. Precise adjustment for the belt position can be done by turning the knob on the sander.

2. A belt can be easily replaced by simply pulling the lever (See the figure below).

6. 3 different sized sand arms and belts are available for your various works.

6 mm and 13 mm sized sand arms and belts as optional accessories.

7. Convenient slim tension roller with a diameter of only 14 mm enables you to do sanding and filing in confined spots.
